

Realize Potential with Intuitive Play

“Play is the highest
form of research”

Albert Einstein

Simple games with a twist invite the element of play to engage our natural abilities and explore what more we are capable of in a fun light hearted way.

Exploring our natural intuitive nature, we engage our sensory abilities, our emotional resilience as we sharpen our mind and activate the body. You may find you move differently and act more efficiently as a happy result!

Weekly Play Development • Introductory Workshop

ONAC Native American Center 265 E Warm Springs Rd #107
